

PRODUCT CATALOGUE

Who We Are

DHS Medical Logistics was established in 2017 as a medical supply company specializing in selling, installing, user training and repair of medical equipment, as well as designing hospital spaces.

We have unrivaled practical experience and expertise in dealing with the challenges of supplying quality and affordable medical equipment in Uganda. DHS is a total solution to address the challenges of hospital equipment in the country.

Certified by the National Drug Authority for medical equipment importation and supply in Uganda, DHS Medical Logistics aims to lead the healthcare sector through innovative marketing and steadfast dedication to quality.

Table of Contents

Triage Equipment	1
Ear, Nose and Throat Equipment	4
Treatment/Emergency equipment	8
Theatre Equipment	12
Energy Sources	23
Intensive Care Unit Equipment	30
Obstetrics and Gynecology	38
Ward Equipment	45
Lab equipment	50
Minimal Access Equipment	63
Radiology Equipment	73
Dental Equipment	87
Orthopedic and physiotherapy equipment	91

TRIAGE EQUIPMENT

Huntleigh SC 300 Spot Monitor

HUNTLEIGH
A MEMBER OF THE ARJO FAMILY

- Clear 6" digital display with large easy read info.
- Wireless temperature option (up to 10m range).
- 50 Measurement memory.
- Minimum number of controls.
- Long life battery pack (12hrs).
- Choice of SpO2 technologies: Own Brand / Nellcor.
- Can be wall mounted or on trolley.

Scrubs

- Durable fabric.
- Available in various sizes.
- Multiple colors available.
- Soft and comfortable.
- Wrinkle free.
- Fully adjustable drawstring.

Maternity and Patient Gowns

- Durable fabric.
- Available in various sizes.
- Multiple colors available.
- Soft and comfortable.
- With provision for breast feeding.
- Design protects patients' modesty.

Caretek Examination Bed

- Manual backrest adjustment.
- Easy to assemble flat pack delivery.
- Epoxy polyester powder coated steel frame.
- Stitch free corners for easy cleaning.
- Four adjustable feet for uneven floor.

Weighing Scale TCS - 200LP (KINLEE)

- Weighing Balance up to 200Kgs.
- Height meter.
- BMI function.
- Large LCD digital display.

EAR, NOSE, THROAT EQUIPMENT

Otoscope

- LED Bulb light.
- 2 AA Batteries powered.
- It comes with five different shaped funnels for internal examination.
- User Friendly.

Ophthalmoscope

- Easy to maintain.
- Switches off automatically.
- Lightweight.
- Portable.
- Has LED illumination.

Rycom Temperature Gun

RycomTM

- Switches off automatically.
- Powered by AA batteries.
- Lightweight.
- Portable.
- high temperature alarm

Rycom Digital Thermometer

- LED Light Display.
- Automatic zero.
- Switches off automatically.
- Durable
- Can be used at home and hospital

Portable Blood Pressure Monitor YE650A

yuwell 鱼跃

- Integrated air connector.
- Detection for cuff wearing.
- Indication for movement error.
- Indication for irregular heart beats.
- Large, easy to read LCD display screen.
- Measures systolic pressure, diastolic pressure and heart rate.
- Can fit different cuff sizes.

Boso Aneroid Sphygmomanometer

- Lightweight ABS construction.
- Completely Latex-Free.
- Shockproof Manometer.
- Strong and Durable.
- Traditional air-release system.
- Can fit different cuff sizes.

Accosson Wall Aneroid Sphygmomanometer

- New flexible shock mount resists any damage to the gauge.
- Fine red pointer gives precise indication.
- Smaller, lighter and easily portable.
- Fitted with your choice of Velcro or Ambidex cuff.

Wrist Blood Pressure Machine

- Clear display.
- 2 x 60 memory spaces.
- Risk indicator alarm.
- Arrhythmia detection.
- For wrist circumferences from 13.5 to 19.5 cm.
- Date and time/Automatic switch-off.

TREATMENT/EMERGENCY ROOM EQUIPMENT

Vein Finder

- Lightweight
- Rechargeable
- Comes with a charger
- Very comfortable grip
- Can be used in hospitals & clinics.

Emergency Cart

- Equipped with wheels for ease of movement.
- Has brakes with ABS system.
- Has hand grips for more control of movement.
- Raised edges of the top surface to prevent fall offs.
- Hidden retractable side table used to place the devices needed to revive the patient.

Vapo Nebulizer

- Lightweight.
- Comfortable to wear.
- Quiet Operation.
- Ideal for home and hospital.
- Reliable and Durable.

Vapo vp-m10 Pocket Size Nebulizer

- Portable and lightweight.
- Suitable for all age groups.
- Quiet Operation.
- USB powered.
- Travel friendly.

Finger Pulseoximeter

- Fast and reliable measurements.
- Water resistant.
- Multi-directional OLED screen display.
- Has both SP02 and pulse rated readings.

Vcomin Handheld Pulseoximeters

- Fast measurement of oxygen saturation and pulse rate.
- Multi-functional use in clinics, emergency medicine, practices and at home.
- For the monitoring of adults, children and newborns.
- 2.8-inch TFT LCD color display with large numbers.
- Compatible with Nellcor SpO2 sensors.

Sy-C017 Handheld Pulseoximeter

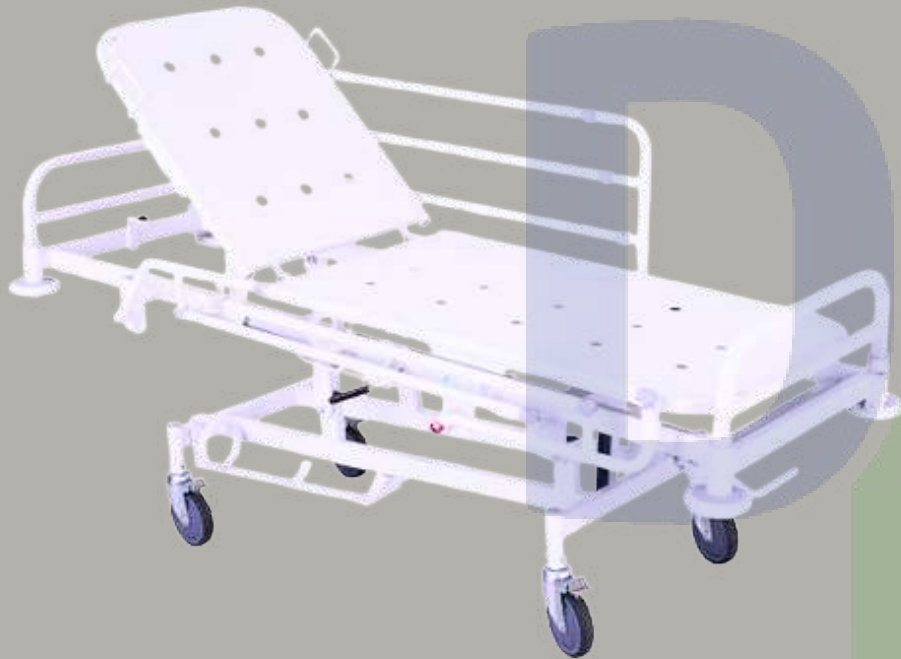

- Measuring: Display of SpO2, PR and pulse strength.
- Prompting: Battery capacity.
- Alarm: Judgment of exceeding the limits, Audio and visual alarm.
- Power saving: Automatic shutdown when no monitoring.

- Operation of the product is simple.
- Low power consumption.
- Operation menu for the function setting.
- SpO2 value display.
- Pulse rate value display, bar graph display.
- Pulse waveform display.

Transport Patient Trolley MS05

- Four swivel castors.
- Complete with corner buffers, synthetic rubber covered handles.
- X-ray translucent removable stretcher, backrest raised on ratchet.
- Finish: Pre-treated and Epoxy Powder Coated.

THEATRE EQUIPMENT

Anaesthesia Machine S6500

- LCD screen displays the Ventilation parameters.
- Multiple working modes such as volume control and pressure limit.
- Real time pressure-time, flow-time loop graphics and high precision.
- Intelligent dual system controls ensure safe use in clinics.

Manual Resuscitator/Ambu Bag

- Includes Adult/Paed resuscitation bag and mask.
- Comes with a bag reservoir.
- Intake valve ensures one-way air-flow.
- Swivel port rotates 360° for optimal freedom of movement.
- Translucent components allow for improved visualization.

Vacuum Extractor -Ardo

- Applications: Dental suction, Surgery, Endoscopy and laparoscopy.
- Foot pedal for quick release of pressure.
- Comes with autoclavable accessories.
- Has a high corrosion resistant painting whereas other parts are covered by plastics mold.
- Rolls on a stable stand.

Electric Suction Apparatus (Tubes & Glasses)

- Max negative pressure: 90kPa.
- Operation noise: $\leq 65\text{dB (A)}$.
- Pumping frequency: $\geq 40\text{L/min}$.
- Reservoir capacity: 2500mL/pc, 2 pieces (glass)
- Foot pedal.

yuwell 鱼跃

Theatre Operating Table

- Manual/Electric.
- Adjustable Height.
- Trendelenburg inclination.
- Side tilting.

Mobile Operating Lamp

- Electricity powered.
- Shadowless LED surgical light.
- Has four wheel casters.

Medical Logistics

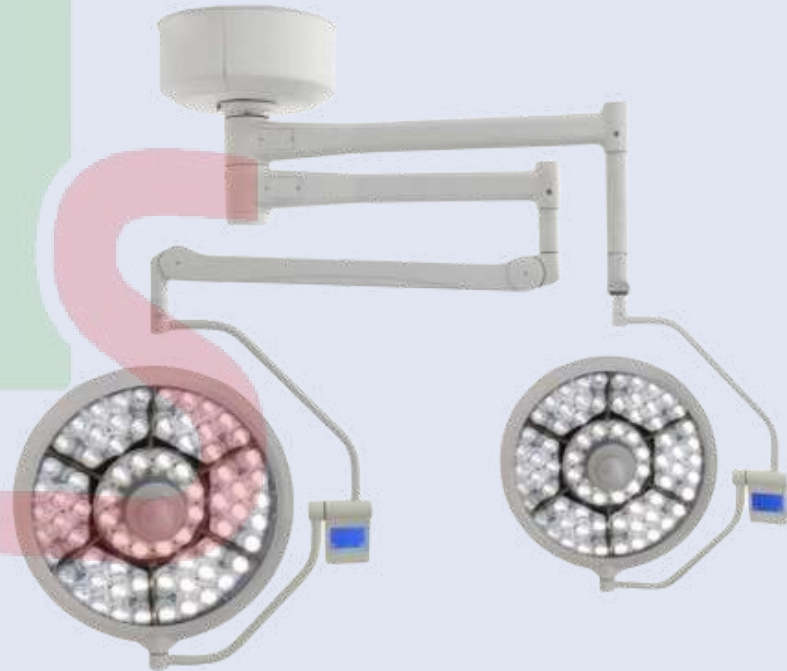

Ceiling Operating Light LED 630

Single Arm Operating Light

- Fast Installation.
- Has a light structure.
- User Friendly.
- Resistant to high temperature and high pressure.

Double Arm Operating Light

- Uses only 40% of electricity compared to Halogen lamp.
- Superior shadow control.
- Long Life.

Health

Electric Surgical Pendants

- Aluminum and the Surface is oxidized for durability.
- Four power outlets.
- Two network outlets.
- Power supply, Gas pipeline and communication lines are arranged separately in one set.

Medical Logistics

Theatre Stool

- Made of durable material.
- Height adjustable.
- Efficient castors.
- Chemical resistant.

Stepper Stool

- Stainless steel frame.
- ABS anti-skid stool surface.
- Double steps.
- Easy to disinfect.

Medical Grade Air Purifier MKJ4000 S Series (EKEAIR)

- High Sterilization and Purification Efficiency.
- Protection from Bacteria, Fungi & Viruses.
- High Filtration Precision.
- Dynamic & continuously disinfect without harm.
- No construction required.
- Easy to install.
- Plug and play.

UV Sterilizer ZXC - II

Wall Guards

- 2 UV Bulbs.
- Angle of Bulbs can be adjusted.
- Stainless steel body.
- Timer Function for easy use.
- Four casters for easy movement.

- 2 UV Bulbs.
- Angle of Bulbs can be adjusted.
- Stainless Steel Body.
- Timer Function for easy use.
- Four caster for easy movement.

Plain PVC Floor Carpet, Hospital Curtains and Doors

- Durable.
- They don't fade.
- Breathable.
- Easy to wash.

Medical Logistics

- Come in various colours.
- Easy to install.
- Gives a beautiful finish.
- Easy to clean.

Sluice Sink

- Stainless steel.
- Tap holes drilled to customer specification.
- Top entry version includes a 520mm stainless steel flush pipe.
- Supplied with stainless steel wall brackets and 38mm flush grated waste fitting.

Anaesthesia Cart

- Anaesthesia carts are ideal for all hospitals and surgery centers.
- Aluminum body construction with ABS plastic cover.
- Convex top board with stainless steel guard railing for better protection.
- Extended work surface, easy for care giver writing.
- 4" swivel caster wheels, two with brake.

Autoclave 100L LMQ

- Chamber heating and heat-dry function effectively improve the drying result after sterilization.
- Build-in water tank, steam and water inner circulation.
- Microcomputer control technology, touch-key.
- Display of dynamic sterilizing process graph.
- LED display of chamber temperature, time and fault code.

SHINVA

ENERGY SOURCES

Diathermy SUTRON LED spA 200

- Max cutting power of 200W.
- Light Digital display.
- Monopolar and bipolar functions.
- Programmable, has a foot pedal.

Diathermy SUTRON LED spA 200 Touch

- Max cutting power of 200W.
- Light Digital display.
- Programmable and touch screen.
- Bipolar cutting and coagulation.

Diathermy SURTON LED spA 300/400

- Two output channels for mono-polar cutting.
- Two independent setting and output channels for mono-polar coagulation more frequently.
- Cutting current with selectable coagulating property for bleeding controlled dissection.

Diathermy SURTON LED spA 300/400 Touch

- Simultaneous activation of Monopolar and Bipolar.
- Contemporary dual monopolar.
- Contemporary dual bipolar Integrated ARGON unit.
- Power control depending on impedance.
- Activating power with pedal/or hand-piece.

LED Surtron 80 HP Diathermy Machine

- Lightweight and compact, making it easier to transport.
- Features adjustable power settings to accommodate different surgical needs.
- Compact and lightweight design makes it suitable for a variety of surgical environments.
- It uses a single active electrode that delivers energy to the tissue

Diathermy LED Surtron 120 with Bipolar

- Reusable Monopolar Hand control
- Reusable 11cm Bipolar Forceps
- Bipolar forceps Adapter and Cable
- 10 x Reusable Electrode tips (various)
- Single Pedal Foot Switch
- Reusable Cable for Neutral Electrode
- Reusable Steel Neutral Electrode
- Power supply cable 2m

Diathermy Ease med Crown 400

EASEMED
Easemed Electrosurgical Pvt. Ltd.

- User friendly and reliable.
- Light-weight.
- Tropicalised.
- Energy efficient.
- Ideal for micro surgeries.
- Highly preferred for underwater surgeries.

Harmonic Generator

- Technology: Ultrasonic waves.
- Compatible with Johnson accessories.
- Light weight with solid interface.
- Up to 300kW.
- Durable.

Harmonic Scalpel

- Excellent quality.
- Plastic material.
- Has various sizes.
- Quick max & min buttons.

Ligature Equipment

- Tissue bundles without dissection or isolation.
- Permanent seal leaves no foreign material behind to interfere with future diagnosis.
- Reduces blood loss in some surgical procedures.

Plasma Surgical Device

- Cutting Temperature: 60 degrees.
- Compact and easy to operate.
- Rapid cutting and separation.
- Faster post-operative recovery.

Surgical Diode Laser System (Galaxy S)

Application: Liposuction, ENT soft tissue

- Compact design makes it small in size and light in weight, easy to transport.
- The green aiming beam improves the alignment and the exact sighting during the treatment.
- Both contact and non-contact mode cutting with simultaneous coagulation.
- Fiber guide laser compatible with various endoscopic use.

INTENSIVE CARE UNIT EQUIPMENT

Syringe Pump

KellyMed

- Applicable syringe: 12 brands for use.
- Occlusion sensitivity: adjustable.
- Can be stacked up and integrated into multi-channel.
- Syringe size: 10, 20, 30, 50 ml.
- Quick max & min buttons.

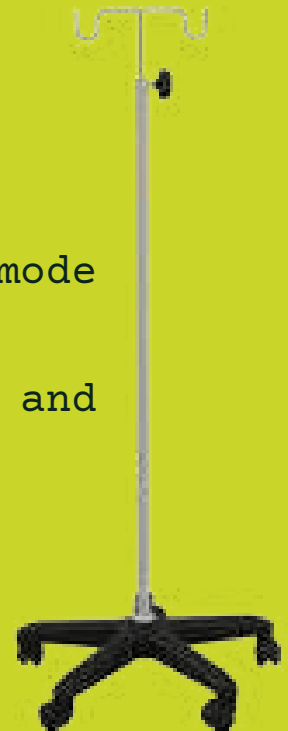

Infusion Pump

KellyMed

- 4.2-inch HD LCD color screen with dual infusion mode using infrared photo-electrode detection.
- Infusion and rapid drainage can shorten infusion and drainage time.
- Anti-push function with three levels (H, M, L).
- Built-in thermostat: 30-45°C adjustable.

Drip Stand

30

COMEN Patient Monitor Star8000E

COMEN

- Multiparameter: NIBP, SPO2, Temp, ECG, Plethysmography, Pulse - rate, EtCO2 (optional) and IBP (optional).
- Mobile trolley.
- Wall mount stand.

Patient Monitor S1200

HUNTLEIGH
A MEMBER OF THE ARJO FAMILY

- Modular Configuration.
- 12.1" Crystal Clear Display.
- User Definable Profiles.
- Automatic or Manual Event Capture.
- Touchscreen Navigation with Smart Key Operation.

CPAP Masks

- Lightweight.
- Easy to use.
- Comfortable.
- Odorless.
- Airtight.

Patient warmer – HEPHO HF – 210

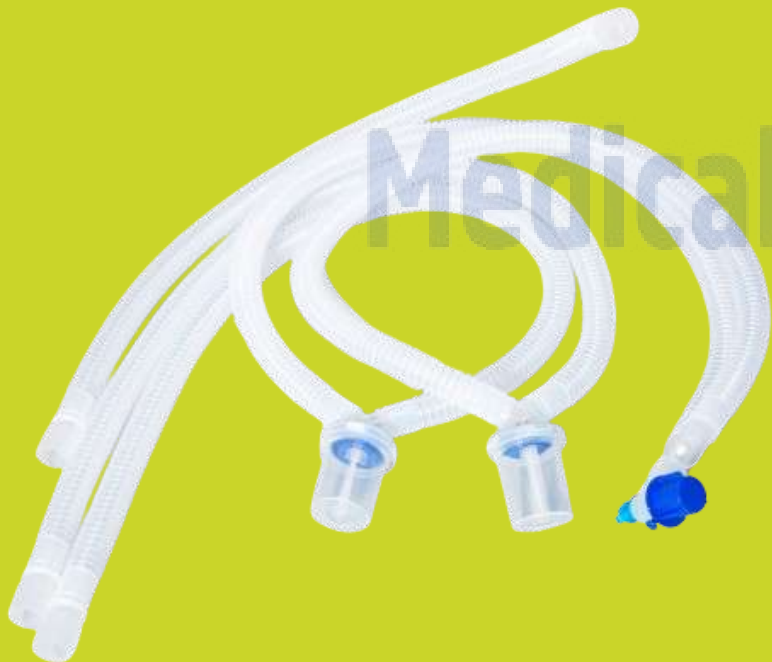

- Comfortable.
- Flexible, easy to use design.
- Soft, radiolucent, latex--free materials.
- Uniform perforations across the blanket surface ensures even convective warming.

Anaesthesia/Ventilator Breathing Circuits 1.8m/1.2m

- High Quality Non-Crush Clear Corrugated Circuit.
- 360 Degrees Swivel Connector.
- Latex Free.
- DEHP Free.
- Extra Connectors.

BV Filters

Superstar S1100 Series Ventilators

- Designed and manufactured by Superstar Medical with over 23 years experience in this area.
- Flexible configurations to suit your needs.
- International standard and advanced technology suitable for wide range use.
- Compact interface and big screen give you better operating experience.

Superstar S1900 Ventilators

- Electronically driven and electronically control
- 15.6 Inches colorful touch LCD screen
- Volume control and pressure limit
- Both non-invasive and invasive ventilation mode
- Various alarming function
- Compliance compensation function
- Built-in battery, when AC power failure, automatic exchange to backup power

S9030 Non Invasive Ventilator/ BiPAP/ Duo level

- 3.5inch LCD screen displays the ventilation parameters and alarm information.
- Multiple working modes: CPAP, S, S/T, T, PC adapt to wide range patient.
- Integration breathing circuit design ensures easy operating and keeps tidy.
- Shutting down machine is not required while refiling water into humidifier.

Herida Argyll 2 Airflow Mattress

- Large deep cell design which aids patient comfort, whilst providing excellent pressure relief.
- CPR function which aids rapid deflation or medical attention.
- Transport mode which enables ward/ patient procedures.
- UK manufactured product. Provides total confidence to user via exceptional quality and workmanship.
- Clinically proven. Giving peace of mind to nursing staff and patients.

OBSTETRICS AND GYNECOLOGY EQUIPMENT

Caretek Gyn/Delivery Bed GB310

- German Made Power-Packer Foot Operated Hi-Low.
- Manually Operated Gas Assisted Retracting Back Rest.
- Manually Operated Gas Assisted Head Down Tilt.
- Integral Foot Section Extension & Retraction.
- Slide in Removable Basin.

Baby Cot

- Light-weight.
- Inclining tray.
- Has four wheel casters with locks.

Infant Radiant Warmer (Being) BRW - 300A

- Skin temperature and manual control by micro-computer.
- Over temperature alarm.
- Available adjustment of radiator and mattress tilting.
- With one illumination light.

BIN-300B Infant Incubator

- Various self-check alarms.
- Free-step mattress tilting adjustment.
- Removable humidity reservoir, easy to clean.
- With the transfusion shelf and tray.
- Added with guardrail.

Luckcome Cardiotocograph CTG L8

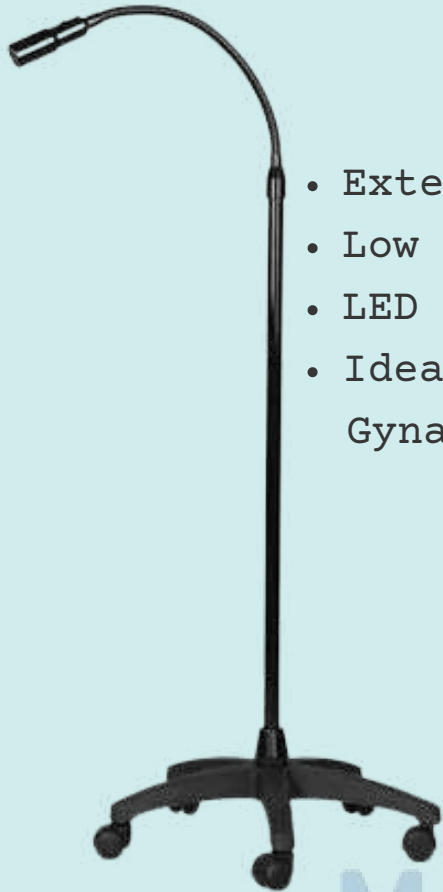

- Short time variance analysis.
- Probe off alarming.
- Auto scoring and printout.
- Built-in rechargeable Li-Ion battery, support longtime working.

莱康宁
LUCKCOME

Examination Lamp

Health

- Extended handle for facilitating position of light.
- Low energy consumption : $\frac{1}{3}$ less than conventional Halogen system.
- LED service life 40 times longer than Halogen bulb.
- Ideal for GP practices, E.N.T., Ophthalmology, Gynaecology, small theatre, minor operations and other surgery use.

Medical Logistics

Superstar CPAP NLF200D

- Easy to use, easy to move with 4 wheels.
- Adapt the equipment to your patients and procedures freely.
- Designed and manufactured by Superstar Medical with over 23 years experience in this area.
- Flexible configurations to suit your needs.

Vcomin Fetal Doppler FD 300D

- Easy and convenient operation.
- High-fidelity, crystal clear sound.
- Earphone and speaker are feasible.
- High sensitivity water-proof probe.
- Low ultrasound dosage.
- Large display.

HUNTLEIGH
A MEMBER OF THE ARJO FAMILY

Huntleigh Fetal Doppler Sonicaid FD1/FD3/SR2/SR3

- Compact and light-weight design for ease of portability.
- Large high contrast LCD display of FHR in BIG numbers.
- Combined Power ON/OFF/Volume control for ease of use.
- Easy clean probes for improved infection control.
- AA batteries for convenience and long term cost effectiveness.

Infant Phototherapy

- Suitable for reducing the concentration of bilirubin in newborns
- Easily moves with wheels
- LCD display shows time & lighting intensity
- Programmable system controller to set different lighting intensity for different time

Electronic Baby Scale

- Lightweight.
- Uses AA batteries.
- Digital display.
- Carries up to 20kg.
- Measures height in cm and inches.
- Accurate readings.

WARD EQUIPMENT

Caretek Reclining Chair

- Folds easily.
- Strong Construction.
- Stitch free corners for easy cleaning.

Caretek B400-68 Two Crank Bed

- Removable Lightweight HDPE Head & Foot Panels.
- Removable ABS Deck Panels (cleaning & service).
- Head & Foot End Rotating Wall Buffers.
- Modern European Design.

Hospital ICU Bed Caretek C-4DS-18

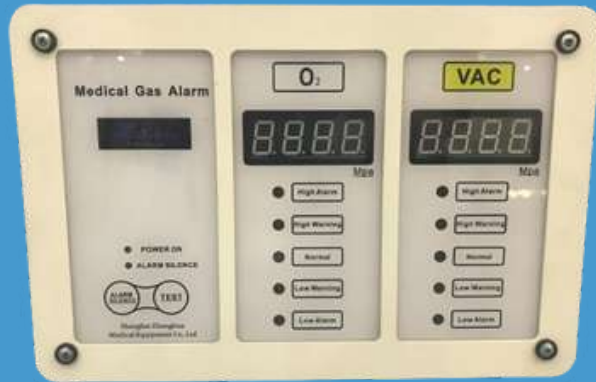

- Linak Actuator System with OpenBus Control Box.
- Integrated Digital Weighing System Accuracy to 0.1kg.
- Split Side Rails with Inset Controls for Patient & Nurse.
- Trendelenberg Tilt 14° Head and Foot Down.
- Retracting Backrest - Reduces Abdominal Squeeze.

Hospital Three Crank Bed M420 Electric/Manual

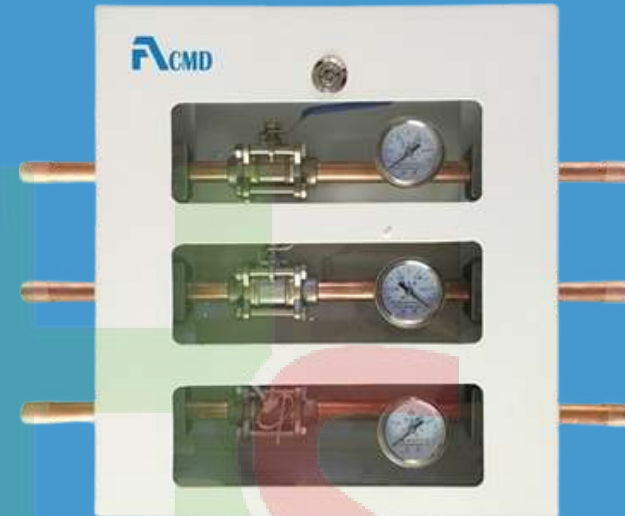

- Linak Actuator System.
- Split Soft Drop HDPE Side Rails.
- Removable Lightweight HDPE Head & Foot Panels.
- Removable ABS Deck Panels (cleaning & service).
- Tente 5" Central Locking Castors.
- Battery Back-up (Optional).

Gas Monitoring system

Gas Valve Box

Gas Headwalls

Gas Manifold System

Caretek Bedside Cabinet

- ABS Injection Moulded Construction.
- Pull Out Drawer Front Doubles as Handy Flat Surface.
- Side Panels Include Drop Down Towel Rail & Hooks.
- Open Bottom Shoe Shelf (LP110 only).
- 2xBrake + 2xFree Wheeling Castors.

Caretek Overbed/Cardiac Table HT110

- Modern ABS Plastic Base Cover.
- 55mm Diameter Twin Wheeled Castors.
- Safe Working Load 25Kg Evenly Distributed.
- Flat Pack, Steel Construction Powder Coated Grey White.
- Vacuum Laminated 18mm MDF Timber Top.

Medical Logistics

Caretek Monkey pole

Yuwell Oxygen Concentrator 9F-5AW

- Built-in Pulse Oximeter
- Back-lit LCD screen
- Back-lit flow meter
- Remote control
- Nebulizer air outlet
- Top tray for storage of accessories
- Power failure alarm
- Low oxygen alarm

LAB EQUIPMENT

Medical Refrigerator

- Built-in mechanical lock to ensure safety of stored items.
- Built-in Castors for easy relocation when needed.
- With 80mm thick polyurethane foam insulation.
- Password protected control setting.
- Antibacterial powdered inner and outer surface.

Torniquettes

- Great elasticity.
- Running surface on both sides.
- High resistance.
- Easy to use.
- Very affordable.

Blood bank refrigerator

- Adjustable shelves.
- Blood storage baskets can be classified.
- Double layer transparent glass door for easy observation.
- Has a thermal printer
- Lockable door
- LED Lamp
- 360 degree lockable castors

Laboratory Water Bath

- LCD screen
- Multiple data display with timing function
- Temperature-limiting alarm system.
- Easy to clean.

Lab Incubator

- High Control Precision.
- Stackable.
- Adjustable Shelves.
- Able to adapt to a variety of laboratory environments.
- Covered chambers make it easy to clean.

Lab Oven

- Easy to Operate.
- Has excellent temperature regulation capabilities.
- Forced Air Type.
- Safe on Operation, has anti-skid shelf design.

Electrolyte Analyzer BKE Series

- Low consumption, effectively reducing the cost of consumables.
- 7-inch high-definition touch screen, comprehensive content display.
- The software supports automatic potential tracking correction to ensure stable performance.
- Automatic monitoring and filtering of tiny air bubbles to ensure measurement accuracy.

Electrolyte Analyzer Reagents

Chemiluminescence Immunoassay istar 500

- Over 50 tests for cardiac, liver, kidney and other hormonal tests.
- 10-inch high-definition touch screen.
- High accuracy with stable performance.
- High label technology.
- Mono test design with no waste of reagent.

DH36 Hematology Analyzer

- 3-part differentiation, 21 parameters.
- Only 9ul sampling volume.
- Up to 60 samples per hour.
- 50,000 sample results, including parameter, histogram & patient information.
- Venous whole blood, anticoagulant peripheral whole blood and pre-diluted blood.

Chemistry Analyzer full auto Bioelab AS 160

- User-friendly software interface simple, easy-to-operate.
- Sample automatic dilution(decrease, increase, normal).
- Reaction results in automatic checking and warning calibration result in automatic checking, warning alarm log.
- Linear & nonlinear calibration, multi-points calibration up to 8 points.

BIOELAB
— 颐兰贝 —

Biochemistry Reagents

- Lipase (LPS), UREA, Uric Acid (UA), Creatinine, Total Bilirubin (T- Bill), Albumin (ALB), Alkaline Phosphate (ALP), Glutamate Pyruvate Transaminase (GPT/ALT), Lactate Dehydrogenase (LDH), Total Cholesterol (CHO), Amylase (AMY), High density Lipoprotein cholesterol (HDL-C), Glucose (GLU), Total Protein (TP), Alkaline Wash Solution, Low density lipoprotein cholesterol (LDL-C), Glutamate Oxaloacetate Transaminase (GOT/AST), γ -Glut amyl Transferase (γ -GT/GGT), Triglyceride (TG), Direct Bilirubin (D-Bil)

Hematology Analyzer Reagents

Diluent DIL-E for Dymind DH36

- Aids accurate and reliable results.
- High Quality.
- User-friendly interface hence straightforward application procedures.

Dymind Lyse LYE-1

Probe Cleaner

- Compatible with a wide range of medical instruments.
- Saves time and resources by streamlining instrument cleaning procedures.

Hematology Analyzer Reagents for Open System/Mindray

- Binocular head.
- Olympus 10x eyepieces with 18mm field of view
4x, 10x, 40x, 100x infinity objectives.
- Graduated mechanical stage with smooth movement.
- Illumination with variable intensity.

Glucometer

- Hyper & hypo glycemia indicator.
- Pre and post meal markers.
- Enlarged LCD Display.
- Strips available.
- Proven Clinical Accuracy.

Micropipette

- 3 Highly Accurate IVYX Scientific Pipettors.
- Lightweight.
- Easy to calibrate and maintain.
- The bottom part can be autoclaved.

Electric Centrifuge

- 2 Knobs with scales on operation panel.
- Durable and sturdy construction for long time use in lab.
- Compact size for portability.
- Light weight for easy transportation.
- Two rotary knobs for adjusting speed and setting time.

MINIMAL ACCESS EQUIPMENT

Sterile disposable skin stapler

- Simple, flexible, safe and efficient.
- Handy it can fit in your first aid kit.
- Hypoallergenic, self-adherent, self-adhesive, transparent & water resistant.

Disposable Endo Linear Cutter Stapler

- Components can be rotated 45 degree left and right.
- Three rows of staple height are different, which ensure the consistent results.
- Instrument can be rotated 360 degrees, which means the equipment can be used in any place.
- Easy to operate.
- The tactile feedback when stapling, allows the surgeon to confirm that suture staple has shaped.

Used Endoscopy: Olympus/Fujifilm/Endochoice

Disposable Endoscopy Biopsy/alligator Forceps/Graspers

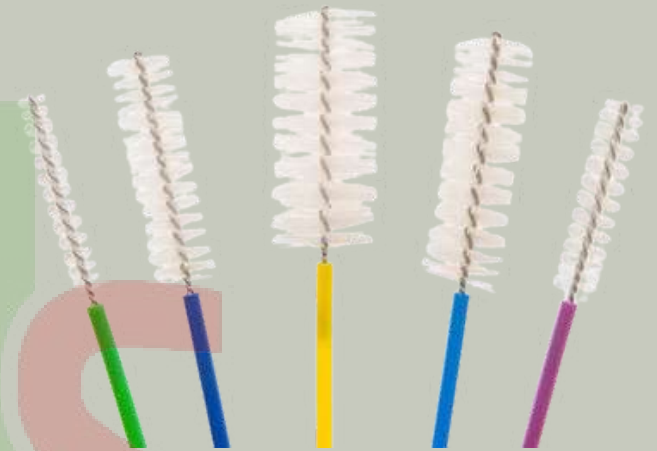

- Swinging jaw design.
- Opens over 90 degrees.
- Variety jaw designs available.

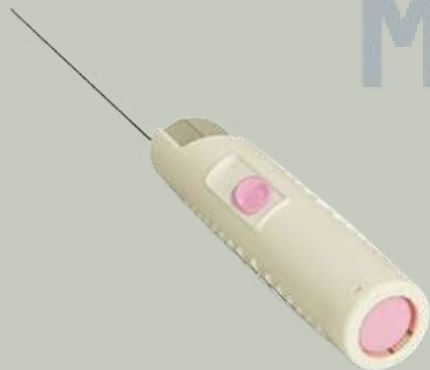

Endoscopy Long Brushes

- Durable nylon bristles.
- Maximum cleaning performance.
- Flexible.

Biopsy needles/Gun

- Minimal displacement of tissue due to high-speed action.
- Cutting cannula sharply tissue, capturing quality samples in needle notch.
- The Etched needle tip is grit-blasted to create a more diffuse surface area.
- Angled sample notch for enhanced needle action.

Polypectomy Snare

- No need to power on.
- Easy to operate.
- Low complication rate.
- No risk of polyp residue.
- Low cost.

Pressure Leakage Tester

- Portable.
- Durable.
- Accurate Measurement.

RADIOLOGY EQUIPMENT

Lead Gloves

- Comfortable.
- Durable.
- Easy to clean.

Lead Goggles

- Comes with a case.
- Clear.
- Plastic.

Lead Apron

- Made of durable material.
- 0.5mm lead equivalency.
- Has adjustable straps.

X-ray Epson Printer L1300

HSIN

- Fast Printing Speed.
- High Quality Resolution.
- User-Friendly.

X-ray Films

HSIN

- Sizes in inches: 8x10", 11x14", 14x17"
- Rapid Printing.
- High Quality Images.
- Durable.

X-ray Ink

HSIN

- Reliable Printing.
- High Quality Imaging.
- Cost Effective.

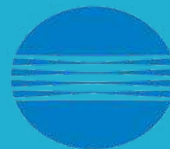

Used Computed Radiography (CR) system: Fujifilm/Konica

- Compact size ideal for small work-spaces.
- Highest resolution CR System.
- Multi-touch display for easy operation.
- Reduced energy consumption.

FUJIFILM
Value from Innovation

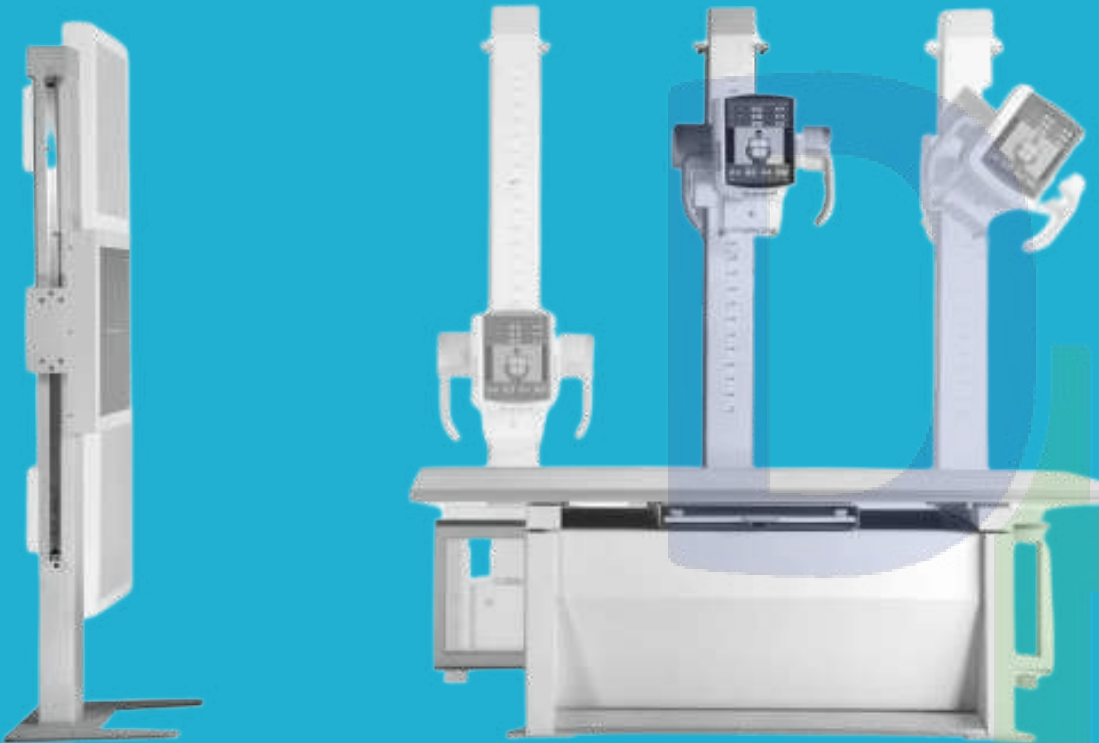

KONICA MINOLTA

Lanmage Apollo advanced x-ray

Lanmage

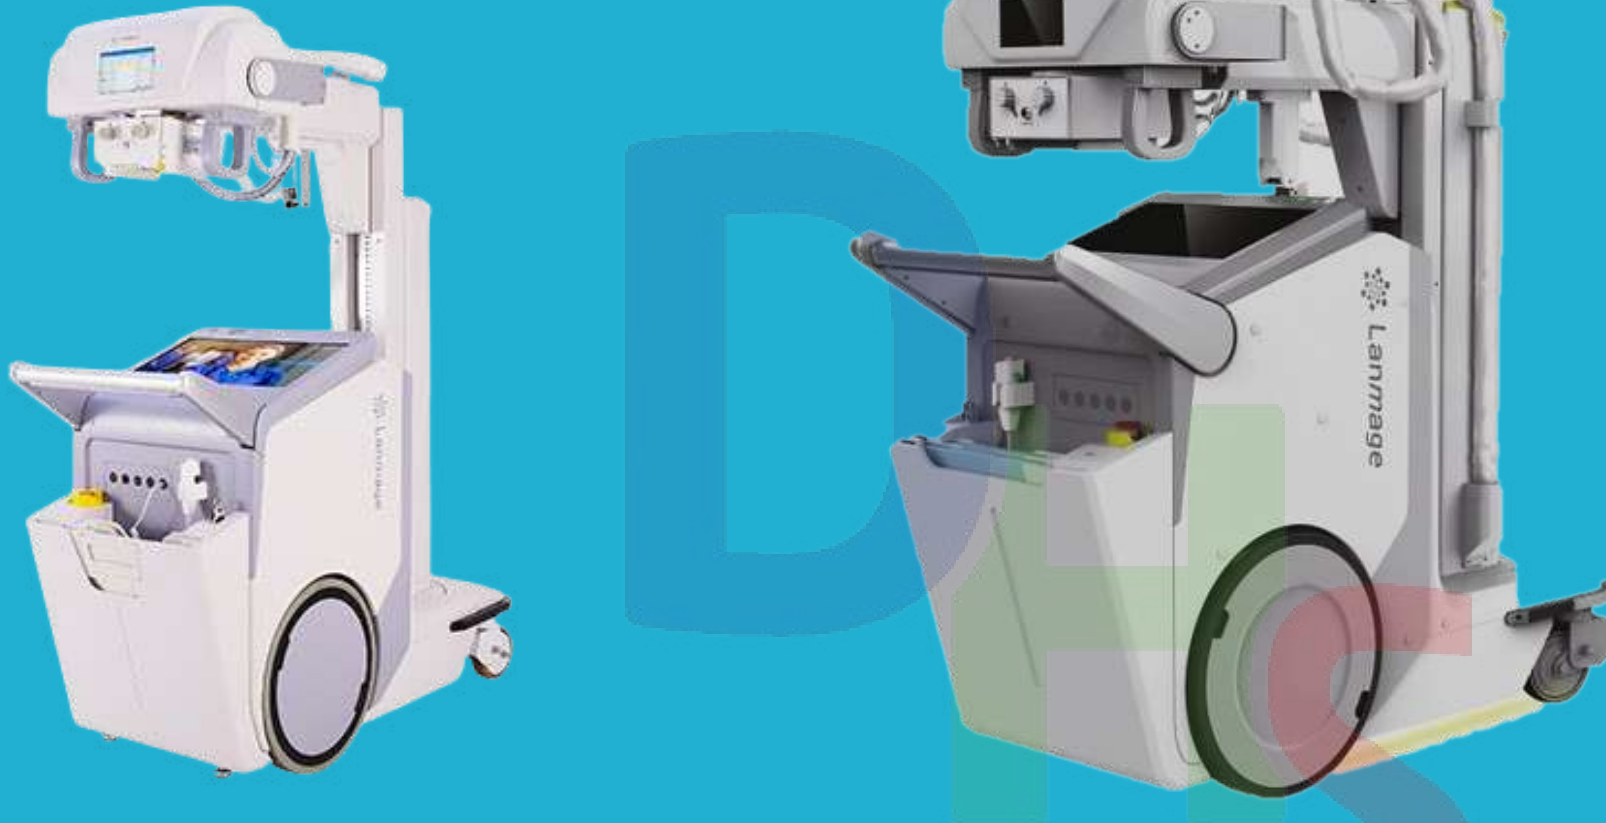

- Innovative technology makes exam faster and more accurate.
- 12 inch intuitive touch screen provides a new communication mode between user and the system.
- Quality Imaging ,elevating patients table, adaptive design of ceiling suspension.

- Collision avoidance safety system.
- Elevating patient table.
- Concealed tank chain.
- Adaptive design of ceiling suspension.

Lanmage Apollo 7200A X-ray

Lanmage

- The smart, flexible and efficient mobile DR Akso enables easy bedside X-ray imaging, and is highly preferred by doctors.
- Superior smart power management.
- Wireless flat panel detector.
- Intelligent and safe interactive design.

Model: 6000A X-ray

- Collision avoidance safety system.
- Elevating patient table.
- Concealed tank chain.
- Adaptive design of ceiling suspension.

Model: 6000E X-ray

- Well-Knit structure.
- Less space occupation.
- Fast screening for physical examination.
- More flexible to the patient in emergency.

- Integration and Innovation.
- Extended applications.
- Intelligent one-button optimization technology.
- Convex expansion technology.
- Real-time three synchronization.

- Patent Signal Oversampling.
- LW Digital Fine Focusing.
- LanSRI: Speckle Reduction Imaging.
- Color Flow Peak Velocity Capture.
- Auto IMT.

Used Shimadzu Fixed X-ray

- High image quality.
- Easy to operate.
- A detachable grid reduces radiation exposure on patients.

Used GE Fluroscopy

- High resolution image monitor.
- Archive images using a variety of devices.
- User-friendly interface.
- Closed-loop automatic brightness control.

GE HealthCare

CT scanner ScintCare Blue 755

MinFound

- AI-empowered workflow provides easy and comfortable operation.
- 70 kV low dose protocol is available for pediatric scanning.
- Robust hardware allows the system to run stably.
- 20 mm Z-axis coverage, 32 slices per rotation.

Sinopower Injector Pump & CT Syringes (SinoPower-D)

- LCD touch screen display, easy to operate.
- LED rotation indicator shows the injection process clearly.
- Local and remote console available, which support synchronous operation of the machine.
- Over 100 drug protocols supported, which allows more flexible injection.

GE MAC 1200 ST ECG Machine

- Reusable.
- Divided into adult and pediatric types.
- Non-adhesion for clinical use.
- Durable.

ECG Electrodes

- Easy to clean.
- 3-Channel display for easy viewing and equipment setup.
- Improved Pacemaker Detection Technology.
- Easy to use.

ECG Leads

DENTAL EQUIPMENT

Dental Chair

SHINVA

- Glass bowl spitton with auto water system.
- LED light having High & Low intensity with sensor system.
- Vertical & horizontally movable instrument arms with Pneumatic locking system.
- Stainless steel Instrument tray & adjustable Headrest.

Dental Compressor

- Durable.
- One way valve with stainless steel balls design to reduce the leak.
- Stable performance.
- The perfect welding techniques, coupled with the great paint processing technology.

- Dynamic pulsating exhaust function.
- Built in water tank, steam and water circulation.
- Microprocessor control technology with touch pad.

Apex Locator

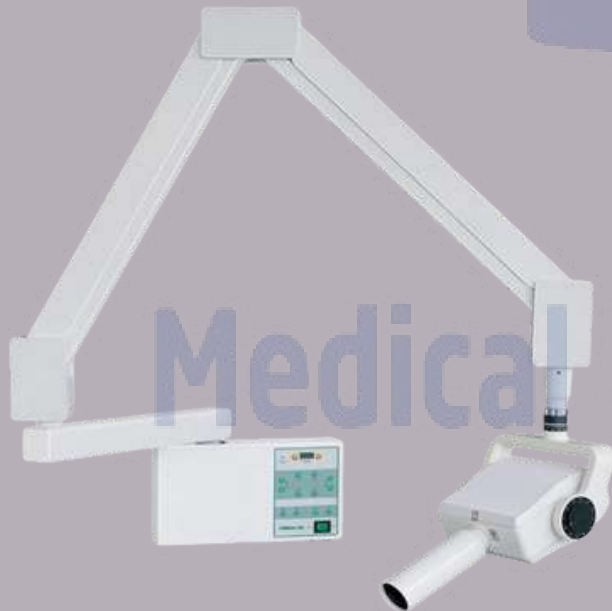

- Smart AI detect.
- Metal pedal, thin body.
- Multi-frequency, display within 0.2 second.
- High resolution, 4.0'' color LCD screen.
- Intelligent connection with Endo motor EP Smart.

Dental Scalar – Woodpecker

- High frequency vibration to remove plaque.
- Reliable.
- Portable.

Dental Portable Wallmount X-ray

- High-tech x-ray imaging.
- Accurate and fast exposure time selection.
- The soft positioner arm ensures naturally smooth and well-balanced movements.

Dental Low Speed Handpiece

- Flexible and convenient operation.
- No vibration while revolving.
- Steady operation.
- Push button.

Dental High Speed Handpiece

- Strong.
- Lightweight.
- Consistent drilling performance.
- Minimal noise level.

ORTHOPEDIC/PHYSIOTHERAPY EQUIPMENT

Commode Chair

- Easy push-button design for simple, custom height adjustment.
- High strength, durable silver steel plated, steel-welded construction with simple tool-free assembly.
- 3-In-1 commode design for use at bedside, as a raised Toilet Seat over a regular toilet.

Caretek Electric Stand Up Rehabilitation bed

- Safe working load 200kg.
- Three clamping belts.
- Removable ABS deck panels.
- Auto regression backrest reduces abdominal squeeze.
- CPR quick release auto regression backrest.

Caretek Four Cranks Orthopedic Traction 0511

- 4 sets of manual rocker systems
- Cold rolled steel punching machine panel
- Aluminum alloy guard-rail with aluminum alloy bracket
- 5-inch universal hardware casters
- P.P head and foot board

Caretek 4d Spine Traction Bed TW530

- Three-dimensional adjustment of the table bed.
- Adjustable parameters: type of traction, force, time in which the force will be increased to the max value or decreased.
- Safe dosage of traction forces, with preset maximum, impassable values for each of the traction types, controlled by a microprocessor.

Transcutaneous Electrical Nerve Stimulation (TENS) T.E.N.S XY-K-SJD-A

- Output waveform: bi-directional asymmetric square wave.
- Continuously adjustable in the output current peak of each way of therapeutic apparatus.
- Three channels pulse output, available for treatment of three patients.

Interferential Therapy Machine

- Multiple treatment prescriptions can be stored.
- Therapeutic apparatus for different indications.
- One-channel inferential current output.
- Easy to operate.
- Portable.

Walking Frames

Invacare Action 4 NG Manual Wheelchair

- Lightweight and a compact model.
- Has a double cross reinforcement system.
- Head and neck rest options.
- Removable armrests and leg-rests.
- Prevents postural pain.

Yes, you can.®

Invacare WheelChair Manual 9000XT

- "No flex" wheels for superior performance.
 - Urethane casters for lightweight and smooth ride.
 - Dual-axle allows for user to self-propel or be propelled by a caregiver.
 - Adjustable center-of-gravity.
- Easy-to-clean nylon upholstery.

Yes, you can.®

Heavy Duty Invacare Baritric 9000 Tracer IV Wheelchair (standard)

- Heavy-duty inner liners keep seat and back from stretching.
- Attractive, silver vein finish.
- Desk-length or full-length padded arms for comfort.
- 14-gauge cross-braces add durability and strength.
- Folds to 13" wide for convenient travel and storage.
